## CORE SKILLS

|                             |            |
|-----------------------------|------------|
| Data Analysis               | Advanced   |
| Dashboards (Power BI)       | Advanced   |
| DuckDB                      | Proficient |
| Automation (N8n, Make.ai)   | Advanced   |
| Python / SQL                | Advanced   |
| Full Stack (Angular/Ionic)  | Advanced   |
| AWS (Cognito, S3, DynamoDB) | Beginner   |

## TECH STACK

- MySQL
- DuckDB
- Power BI
- N8n
- Make.ai
- Python
- MongoDB
- Pandas
- Matplotlib
- Plotly
- Dash
- React
- TypeScript
- Apache Superset
- Databricks
- Excel
- Jira
- Git

## CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (Valid: 26/12/2025–27/12/2026)
- AWS Cloud Practitioner Exam Prep
- Python 3 Programming

## PROFESSIONAL SUMMARY

Data analysis professional prepared to deliver impactful insights and drive business decisions. Adept in data visualization, statistical analysis, and database management, with a strong focus on teamwork and

adaptability. Known for reliability, analytical thinking, and a results-driven approach. Skilled in Python, SQL, and Excel to build robust data solutions and strategic recommendations.

## ● WORK EXPERIENCE

### Power BI Developer

Oct 2025 – Present

#### Data Cuentos — Hyderabad (Remote)

- Designed and implemented a responsive web solution that automates OCR for PDF bank statements, improving operational efficiency for motel LLCs.
- Delivered JSON/CSV/Excel outputs using React + AWS; optimized authentication with Cognito and data workflows with DynamoDB and S3.
- Integrated Textract, Lambda, CloudWatch, and CloudFront for reliable document-processing pipelines and monitoring.

### Gen AI Developer

May 2025 – Oct 2025

#### Datalake Solutions — Hyderabad (Remote)

- Designed and implemented a responsive web solution that automates OCR for PDF bank statements, improving operational efficiency for motel LLCs.
- Delivered JSON/CSV/Excel outputs using React + AWS; optimized authentication with Cognito and data workflows with DynamoDB and S3.
- Integrated Textract, Lambda, CloudWatch, and CloudFront for reliable document-processing pipelines and monitoring.

### Senior Full Stack Developer

Dec 2024 – May 2025

#### Varistha Ltd — New Jersey (Remote)

- Developed interactive dashboards in Power BI to visualize KPIs and support stakeholder decision-making.
- Partnered with stakeholders to gather requirements and align reporting outputs with business needs.
- Contributed to Clubsports365, a large-scale responsive application integrating REST APIs with Angular, Ionic, Bootstrap, and Capacitor.
- Performed market research and trend analysis to support strategic planning and opportunity identification.

### Intern — Junior Front End Developer

Oct 2024 – Dec 2024

#### Application Objects Inc — West Chester, PA (Remote)

- Built responsive applications integrating Python REST APIs with Ionic/Angular, HTML, CSS, and Bootstrap.
- Executed data querying and manipulation using Python and SQL to strengthen analysis workflows.
- Authored user-friendly documentation for software applications to improve adoption and maintainability.

### Software Developer

Apr 2021 – May 2023

#### Datalake Solutions — Hyderabad

- Developed cross-platform e-commerce apps (YourBuddy and YourBuddy Captain) using Ionic Framework, Angular, and TypeScript.

- Delivered multiple static websites for clients with REST API integrations and supporting documentation.
- Improved user workflows and supported code review practices to raise quality and performance.
- Intern: Mar 2021 – Apr 2021

## ● PROJECTS

### NFL Simulator

Developed an NFL game simulation tool in Python using statistical models and real-world team data to predict outcomes and performance metrics. Implemented customizable simulation parameters to analyze team strengths, player stats, and strategies.

### Apartment Hunt Helper

Streamlined the rental search process with a platform to search properties, review landlords, and share experiences using JavaScript, Handlebars, and CSS.

### Dark Web Crawler Data Analysis

Working on data analysis and visualization for a dark web crawler dataset (~0.5B records) using DuckDB and Apache Superset.

## ● EDUCATION

### M.S. in Computer Science

Stevens Institute of Technology — NJ, United States

Dec 2024 • GPA: 4.1/5

### B.Tech in Computer Science

GITAM School of Technology — Hyderabad

Mar 2021 • GPA: 7.4/10

## ● ADDITIONAL DETAILS

### Databases

MySQL, DuckDB, MongoDB

### Tools

Excel, N8N, Databricks, Power BI, Apache Superset, Make.AI, Git, Jira

**Target roles:** Data Analyst, BI Analyst, Full Stack Developer

**Availability:** Open to Remote / Hybrid
